

International Summer Camp

Language course

Language classes – fun, interesting and motivating

Whether you are a beginner in the language, or already a very proficient speaker and user of the language, there is a class for you, from absolute beginners to advanced users of the language. The classes are for children who are NOT mother tongue speakers of the chosen language.

The focus of the classes is on communication (listening and speaking), with new grammar introduced through listening or reading, so that children learn by using the language. Students are encouraged to work in pairs or groups, thus giving the children an opportunity to share ideas and learn about other cultures and opinions. At higher levels, there is more writing and reading, with projects and presentations.

Aim and outcomes

All classes are fun and give a chance for the participants to develop or increase their self-confidence in the chosen language. They will get to know children with other languages and cultures, and, of course, make new friends. Another very important objective is that the students leave the camp with an increased motivation to continue their studies in the chosen language.

Levels

English, German and French classes (level A0, A1, A2, B1, B2, C1, C2)

The English, German and French classes are for non-native speakers of the chosen languages and are offered from beginner to advanced levels.

English and German with an academic focus (B1+ - C1/C2)

This course is for non-native English/German speakers who need to improve their skills to succeed in a mainstream English/German classroom.

An online test will be sent before the start of the camp to assess the student's level.
